

## Mentor's Reflection by Mrs. Nikki Rosswurm, Social Studies Department Chair & Moderator of Student Council

*Lexi Carr is a talented and dedicated student at Scecina. However, the most important quality I admire about Lexi is not her academic achievement or her talents on the Volleyball court. Lexi's most honorable quality is her kindness. Lexi has an innate gift for kindness towards others that she shows to not only her friends, but every student and staff member at Scecina.*

*As Student Body President, Lexi worked wonders to be inclusive and help students of all grade levels feel involved on campus. Lexi radiates joy and its contagious to others, and I was so lucky to spend 4<sup>th</sup> period every day with Lexi as my Teaching Assistant. I could count on Lexi to do all that I asked, but I could also count on Lexi to bring her infectious smile to keep my spirits high on tough days.*

*I am so glad I have been able to watch Lexi grow academically throughout her years at Scecina, but more so I am happy that I have seen Lexi create a growth mindset for herself to work hard and reach her goals all while keeping that smile to radiate happiness around campus.*

## Senior's Reflection by Alexis Carr

*I selected Mrs. Rosswurm as my mentor. When I came to Scecina I did not know Mrs. Rosswurm, but I was a little scared of her. I had heard that her class was extremely difficult, and she was a part of the hallway trifecta (she, Mr. Getty, and Mrs. Zeh) who would call kids out for untucked shirts and such.*

*My sophomore year when I joined student council, I got to know Mrs. Rosswurm a little better and really admired her, even though I was scared out of mind to be late to a meeting. Throughout my sophomore and junior year, I learned a lot about Mrs. Rosswurm and completely respected her for her dedication to Scecina, her diligence in the classroom, and her undeniable love for her students.*

*This year, after some scheduling mishaps, I wound up being Mrs. Rosswurm's TA and I am so grateful for it. Not only did I get a great workout every day by going to fill up her coffee and water cup with ice, but I made a great friend. She always was interested in what I had going on and extended great advice to me. Going to her classroom was a highlight of my day and I miss it entirely. Even though I never had Mrs. Rosswurm as a teacher, I wish I would have. Being her TA, I got to see the love and passion she has for teaching and it is something spectacular.*

*I am so appreciative of Mrs. Rosswurm and everything she has done for me in my time at Scecina, and I wish nothing but the absolute best for her!*
