

Dear Scecina Families,

The English department at Scecina Memorial High School encourages all students to read over the summer, and we ask parents to be a pivotal part of this venture. Studies show that the most significant factor that motivates a student to read is his or her parent/guardian encouraging him or her to read and providing the environment for this to occur.¹ Over the past few years, we have seen students combat what research has shown is the “summer slide,” which occurs when kids do not actively read as much as their peers do. This is a continued concern due to the residual effect of Covid-19 on learning. Unfortunately, with the realities of busy lives, summer jobs, and helping around the house, as well as the disparity in interests, environments, and reading confidence of each student, it is difficult to make reading a priority. To help with this, the following are requirements from the English department for the summer.

It is our hope that you will take this summer to promote reading and literacy. Please contact Kathryn Wetzal, kwetzal@scecina.org, over the summer if you are curious about other programs or have a question or recommendation for helping improve literacy at home.

Sincerely,

The Scecina English Department
